

What is MLTSS?

Medicaid Managed Long Term Services and Supports (MLTSS) allows Members to access their traditional Medicare (medical) benefits while receiving their Medicaid covered benefits through NextLevel Health.

Members who are enrolled in both Medicare and Medicaid are known as Dual Eligible. If you receive Home and Community Based Waiver services or reside in a Nursing Home, you may choose to receive care for covered services through the Medicare and Medicaid Alignment Initiative (MMAI) or MLTSS program.

Medicare Benefits & Options

Medical benefits are provided by Medicare as the primary payer. Participants must be enrolled in a Medicare A, B and/or D plan.

Depending on the Medicare covered benefits, premiums and deductibles are covered by Medicaid Fee-for-Service and/or by one's enrollment in a Medicare Advantage Plan – Part C.

MLTSS Enrollment

Beneficiaries who opt-out of MMAI will be required to enroll in MLTSS if they live in a nursing facility or receive waiver services.

Dual eligible (Medicare and Medicaid) individuals who reside in a nursing facility or receive Waiver services, must enroll in either an MMAI program or the MLTSS program.

During the enrollment period, members may call the Illinois Client Enrollment Broker at 1-877-912-8880 to change their plan.

After enrollment, MLTSS enrollees have a 90-day switch period and then are "locked in" for one year.
