

Provider Memorandum

RE: Drug Utilization Review

Effective November 15, 2019, NextLevel Health will implement the following medication changes:

| Drug | Action |
|------------------------------------|--|
| Dovato ® (dolutegravir/lamivudine) | Added to formulary |
| Emergency Contraception | Changed quantity limit to one (1) fill every 14 days |
| Atypical antipsychotics | Changed to allow two (2) different medications/month |

The Utilization Management/Pharmacy Care Committee conducts regular drug reviews to help ensure Members are getting safe and appropriate care.

NextLevel Health is committed to improving the health of Chicago and Cook County communities. Our approach is simple, to provide care and support services to our Members within their communities.

Our mission is to effectively manage the health and wellness of our Members through strong partnerships, defined care workflows, and a focus on anticipatory management of health concerns and conditions through a coordinated approach. NextLevel Health is continually evaluating its processes, vendors and covered services.

We value our collaborative relationship and joint focus on improving healthcare for NextLevel Health Members.
